

bioTE[®] Nutraceuticals CORE4

*Available at Participating Practices

Probiotic

Probiotics are live microorganisms that are either the same as, or similar to, those found in the human body

Although we tend to think of bacteria as harmful "germs", many bacteria actually help the body function properly. Probiotics aid a variety of gastrointestinal issues including immune system support.

A-D-K 5 & 10

A combination of protection and absorption for the body.

Vitamin A

Required for the normal development, growth and maintenance of the bones.

Vitamin D3

Fat-soluble vitamin essential for maintaining normal calcium metabolism.

Vitamin K2

Has been shown to play an essential role in our health.

Methyl-Guard PLUS

Provides 5 essential methylation nutrients in a concentrated & comprehensive formula.

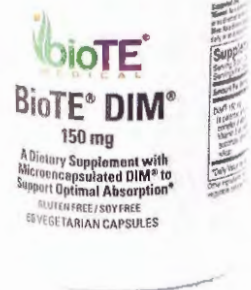

- Methylfolate (5-MTHF), active B6, active B2 active methyl B12 & betaine.
- Helps support proper estrogen metabolism
- Helps support healthy homocysteine levels.

DIM

Studies show, this natural component can balance the metabolism of estrogen in the body.

Found in cruciferous vegetables. DIM can be beneficial for breast, uterine, cervical, and prostate health. DIM stimulates more efficient metabolism for estrogen.

Probiotic

Probiotics are live microorganisms that are either the same as, or similar to, those found in the human body

Although we tend to think of bacteria as harmful "germs", many bacteria actually help the body function properly.

Probiotics aid a variety of gastrointestinal issues including immune system support.

Omega-3

An important factor in maintaining healthy bodily functions

Has been shown to aid in muscle activity, blood clotting prevention, digestion, brain health, fertility, and cell division and growth. Studies show that Omega 3 is beneficial to the heart, eyes, brain, and arthritis relief.

Omega30 PLUS

A combination of 30 fatty acids

The oil found in the Omega30 Plus is extracted from the green-lipped mussel. This oil contains 30 free fatty acids as opposed to the 4-6 fatty acids found in most fish oils. All of this in an easy to swallow, very small soft gel.

Methyl-Guard PLUS

- Provides 5 essential methylation nutrients in a concentrated & comprehensive formula.
- Methylfolate (5-MTHF), active B6, active B2 active methyl B12 & betaine.
- Helps support proper estrogen metabolism.
- Helps support healthy homocysteine levels.

Meriva 500-SF

- The most clinically studied curcumin formulation for relief of occasional aches and soreness due to inflammation.
- Curcumin enhances the activity of the COMT enzyme that helps metabolize estrogen via methylation.
- Protects cells from DNA damage from improper estrogen metabolism.
- Phytosome technology ensures more efficient absorption.
- Soy-free formulation.

Iodine PLUS

Iodine Complex aids in natural hormone production and balance

Iodine is critical to the production of thyroid hormone.

A-D-K 5 & 10

A combination of protection and absorption for the body.

VITAMIN A

Required for the normal development, growth and maintenance of the bones.

VITAMIN D3

Fat-soluble vitamin essential for maintaining normal calcium metabolism.

VITAMIN K2

Has been shown to play an essential role in our health..

DIM

Studies show, this natural component can balance the metabolism of estrogen in the body

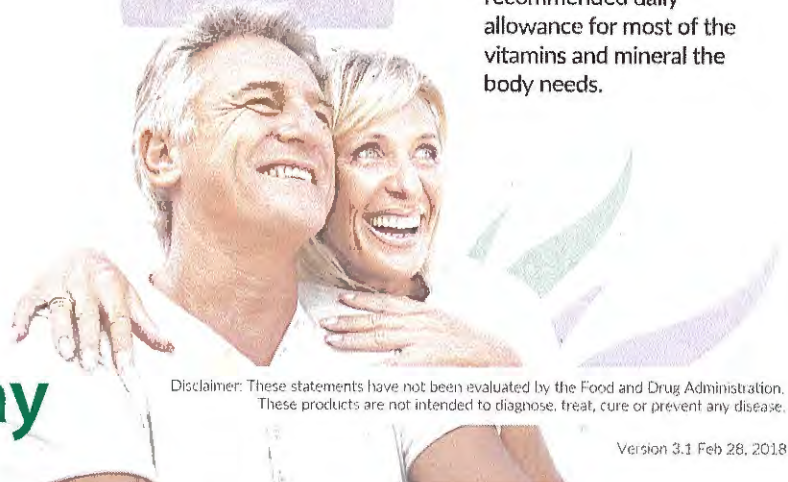

Found in cruciferous vegetables. DIM can be beneficial for breast, uterine, cervical, and prostate health. DIM is not a plant estrogen or an estrogen mimic, like soy isoflavones, but rather an estrogen balancer. DIM stimulates more efficient metabolism for estrogen.

Whole Food Multi

This whole food multivitamin is a unique blend of 12 organic fruits and vegetables that are Non-GMO and Gluten Free. The once daily capsule dosing is convenient and provides 100% of the recommended daily allowance for most of the vitamins and mineral the body needs.
